## **Health Current HIE Services:**

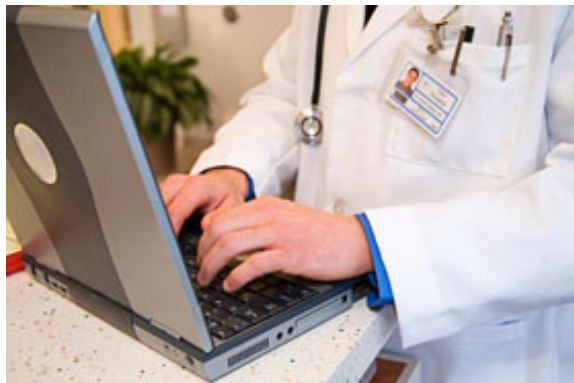

Designed to Integrate Information with the Delivery of Care

Health Current, formerly Arizona Health-e Connection, has worked for more than ten years to become Arizona's primary resource for information technology and exchange. Today, this includes providing a range of health information exchange (HIE) services designed to be integrated into the delivery of care.

More complete information leads to better care and better outcomes.

However, getting more complete information into clinical decision making

and care planning requires some work and redesign of patient work flows. Health Current works with [participating organizations](#) to analyze staffing and work flows to integrate information into the delivery of care. Health Current HIE Services include:

- Alerts

- **Direct Email**
- **Portal**
- **Data Exchange**
- **Clinical Summary**
