

Do Well by Doing Good

A New Financial Incentive Program to Encourage Data Sharing With the Arizona Health Information Exchange (HIE)

Health Current, a Contexture organization, is pleased to introduce a new financial incentive program for select AHCCCS providers participating in the Arizona HIE to encourage data sharing.

More data available to the HIE community gives participating providers a more complete picture of their patients, increasing their ability to deliver the right care to the right patient at the right time.

The new program also serves as a financial tool to offset costs incurred by organizations in establishing the interface for sending data to the Arizona HIE. Ultimately, sharing data with the HIE not only benefits the greater community, it's also good for your organization's bottom line.
