Over 135 Participants Now Receiving COVID-19 Alerts from Health Current

In our effort to support the Arizona healthcare community response to the COVID-19 pandemic, Health Current, Arizona's Health Information Exchange (HIE), launched COVID-19 Alerts, real-time alerts on all COVID-19 lab results received by the HIE.

The community response has been positive, and interest strong with approximately 135 Participants signing up to receive COVID-19 Alerts and support. Here's just one example of how Participants are using the alerts to be better prepared during the pandemic:

HIE Testimonial | COVID-19 Alerts

"We have developed a **new workflow related to COVID-19 Alerts** that is supportive of our staff and clients. The new process makes sure we are aware when a client has been tested for COVID-19 so that **we can take action to keep everyone safe**. It has brought our staff some **peace of mind and confidence** during this time. THANK YOU! We appreciate the collaboration with Health Current."
