Health Current, Arizona’s health information exchange (HIE), has grown more than 700 percent since 2016. This growth is not only in numbers, but also diversity. Today, Health Current participants represent a broad spectrum of the healthcare landscape, from first responders, reference labs, hospitals, community providers and behavioral health providers to long-term care facilities, home care and hospice providers.

HIE growth reflects the connections created through the Arizona healthcare community, in both technology and positive relationships. These connections lead to more complete patient information that helps clinicians make better decisions to improve care and outcomes. Integrating HIE data into clinical workflows helps providers in all settings achieve results.

Because of the COVID-19 pandemic, ACHIEVE 2020 – the 13th annual Health Current Summit & Trade Show – will be 100 percent virtual. The new conference format promises to deliver the same great information that past attendees have grown accustomed to receiving. This year’s event features a variety of presentations on a range of topics, including an HIE update on new technologies and services; the latest HIT legislative and legal updates; use cases by HIE participants; and panel discussions on multiple topics, including Arizona’s response to the COVID-19 pandemic.

Historically, this event attracts over 300 healthcare and health IT professionals, and about 30 percent of Summit attendees each year are C-Suite decision-makers. Sponsorship opportunities are listed below and include recognition at the Summit and in the Summit program. See the reverse side for descriptions of the cost and the benefits of these sponsorships. For more information contact Kristine Aldrin, Communications & Events Manager, at (602) 708-0758 or kristine.aldrin@healthcurrent.org.
